## By the Governor of Alabama

*WHEREAS*, it is estimated that 6.7 million people currently live with chronic wounds and that number is expected to grow at more than two percent annually for the next decade; and

*WHEREAS*, the chronic wound epidemic represents a cost of more than 50 billion to the healthcare system; and

*WHEREAS*, more than 30.3 million people (9.4 percent of population) have diabetes in the United States, and almost two million of those people will develop a diabetic foot ulcer or other non-healing wound; and

*WHEREAS*, wound care physicians and health care providers take great pride in caring for their patients and in seeing their patients succeed; and
