

JUN

WOUND CARE Awareness Month

Nearly **7 million Americans** are living with a chronic wound.

Wound Care Centers® offer world-class wound care with the scientific and clinical expertise to deliver best-in-class patient outcomes.

1 IN 4 FAMILIES

Amputation risk is reduced by **nearly half** when care is provided by a multi-specialty wound care team.

Foot Exams when paired with self-foot checks are key to early identification of wounds and improved outcomes.

You Have The Power To Heal.

Nearly 7 million Americans are suffering from non-healing wounds. That's 1 in every 4 families with a family member that may need specialized care to restore their quality of life.

Many medical conditions can affect the body's ability to heal wounds. These include diabetes, increased age, obesity, and heart or vascular disease.

Don't let a chronic wound limit your quality of life. Start your journey to healing today!
