

WOUND CARE AWARENESS

Healogics®

Celebrating wound care awareness. For more than 10 years, Healogics has successfully focused on patient, provider, and community engagement. The innovative advanced treatment options provided help to identify, heal, and prevent chronic wounds.

Come Heal With Us!

Nearly 7 million americans are living with a chronic wound.

FACTS

Chronic wounds are **projected to increase**

2%
annually

over the next 10 years.

Patients with wounds,
on average, have

3-4
or more

chronic conditions.

Common chronic wounds:

- 31%** Diabetic Foot Ulcer
- 43%** Pressure Injuries
- 12%** Venous Stasis Ulcer
- 8%** Surgical Wound/Trauma
- 6%** Arterial Ulcer

RISKS

Nearly

25%

of people with diabetes
will experience a
diabetic foot ulcer.

Many factors and conditions that contribute to the development of a chronic wound include **diabetes, obesity, heart disease, compromised immune systems, and prolonged periods of immobility.**

Pandemic-related delays in care have been associated with a

50%
increase
in amputations.

CARE

Advanced wound care treatments include **debridement, total contact casting or offloading, new tissue growth, negative pressure wound therapy, and hyperbaric oxygen therapy.**

Amputation risk is reduced by nearly half

when care is provided by
a multi-disciplinary wound care team.

If you are living with a non-healing wound, or caring for someone who is, **request an appointment today.**
