Hospital-based Wound Care Centers[®]

WHY FACILITIES PARTNER WITH HEALOGICS SPECIALTY PHYSICIANS (HSP)

Consistent Provider Coverage

Providers are typically scheduled for a consistent day and time each week to help support continuity of care.

Wound Care Expertise

Wound Care-Trained physicians and nurse practitioners provide specialty care for chronic wounds and dermatologic conditions.

Wound Care Where the Resident Is

HSP supports wound care across the continuum, including hospitals, LTACHs, skilled nursing facilities and outpatient settings.

Clinical Collaboration

Real-Time Clinical Collaboration. Weekly visits support consistent wound measurements, assessments, and dialogue with the facility care team.

Supply Cost Support

Providers work within the facility's formulary and maintain appropriate clinical documentation to support patient care.

Proven Care Partnership Model

Outcomes

PHYSICIAN-LED. EVIDENCE-BASED. BUILT FOR PARTNERSHIP.

Evidence-Based Care

Physician leadership supports clinical consistency and collaboration.

Treatment is informed by clinical practice guidelines and extensive wound care data.

Prevention Program can support early intervention for residents at elevated risk.

Continuum of Care

Our goal is to deliver professional, trusted services that support positive patient outcomes and a seamless experience for your facility. We can accomplish this in a variety of ways.

INTEGRATED CARE MODEL

- Our professional services include wound assessment, minor procedures, plan of care, and wound orders.
- Minor procedures can include debridement, I&D, and biopsy.
- We offer education opportunities for your facility staff.
- Our proprietary EMR provides access to provider notes and orders, supporting care coordination and continuity of care.
- We strive for a 24-hour documentation turnaround.

COMPREHENSIVE WOUND TREATMENT SERVICES

Our goal is to deliver professional, trusted services that advance wound healing and are seamless for your facility. We accomplish this in a variety of ways.

No Provider Billing Through the Facility

Professional provider services are billed to the patient's insurance. Facilities continue billing for their own services.

Specialty-Trained Providers

Physicians and nurse practitioners experienced in chronic wounds and dermatologic conditions.

Consistent Weekly Rounds

Weekly visits support facilities and their residents in advancing wound care.

CMS-Aligned Documentation

Documentation supports quality care, compliance requirements, and operational consistency.

ADVANCED WOUND CARE SERVICES

- Wound Assessment
- Comprehensive wound evaluations
- Debridement
- Minor bedside procedures when appropriate
- Negative Pressure Wound Therapy
- Advanced wound management options
- Biopsy & Diagnostics
- Support for atypical and difficult-to-heal wounds
- Offloading Solutions
- Treatment support for pressure-related wounds
- Ongoing Monitoring
- Continuous evaluation to support healing progress

COST SAVINGS

- We work with your facility's formulary.
- Our documentation supports accurate clinical documentation and Part B billing requirements.
- Services provided at the bedside can avoid transportation for outside treatment.
- We support wound management efforts that may help reduce readmissions associated with wound-related complications.
